PROFESSIONAL SUMMARY

Experienced Software Engineer and Full-Stack Developer with 3+ years of expertise in PHP, WordPress, WooCommerce, Laravel, and JavaScript (React, Node.js). Proven track record building and maintaining premium plugins used by thousands of businesses worldwide. Skilled in designing scalable architectures, automating deployments, and driving cross-functional collaboration. Passionate about solving complex engineering problems and delivering high-quality user experiences. Seeking opportunities with international software companies to contribute meaningfully and grow.

WORK EXPERIENCE

Software Engineer | [weDevs Ltd.](#) • Dhaka, Bangladesh | Oct 2024 – Present

- Contribute to WP ERP, WP Project Manager, and weDocs — products used by tens of thousands of businesses.
- Develop and optimize WordPress plugins, improving performance, reliability, and extensibility.
- Automated plugin release deployments using GitHub Actions, reducing manual effort and release errors.
- Collaborate with cross-functional teams to plan, build, and ship new features on a regular cadence.

PHP Backend Engineer | [XpeedStudio](#) • Dhaka, Bangladesh | Oct 2022 – Sep 2024

- Built and maintained premium WooCommerce extensions and WordPress plugins: ShopEngine, MetForm, EmailKit, ElementsKit, and GutenKit.
- Conducted technical R&D to evaluate new approaches, informing architectural decisions for plugin scalability and security.
- Collaborated closely with UI/UX and marketing teams to align product features with user needs and business goals.
- Improved plugin architectures to increase maintainability and reduce security vulnerabilities.

Assistant Programmer | [MicroMac Techno Valley](#) • Dhaka, Bangladesh | Feb 2022 – Oct 2022

- Developed LOSS and SRemit applications from scratch, covering full lifecycle from design to deployment.
- Provided maintenance and support for FxCredit, goAML, and PBMS systems.
